

The VIP SKI Chalet host cooking course is designed for potential chalet hosts wishing to develop their cooking skills and confidence before departing for a winter season in the Alps. It is ideal for candidates who have all the necessary attributes needed to become a chalet host but who are lacking in cooking experience and/or catering confidence.

With successful completion of the course we believe you will start the season with minimal stress, fully able to enjoy your job, especially the cooking and maximise all the fun that your new season life will bring.

The course will not only provide you with all the necessary skills to be able to cook a typical chalet menu but to cook it with confidence and with some amount of flair. You will have a better understanding of the principals of cooking, menu planning, ingredients and how these work together. Such skills will make you a great Chalet host and also a good cook generally for life after your winter season.

The course is run from one of our luxury chalets in Morzine and designed to fully replicate the challenges and realities of running a chalet in the winter. Providing the perfect learning environment; you'll be cooking in a chalet kitchen, at altitude, and with similar hours to that expected of you in a chalet host role.

The course is delivered by experienced chalet hosts and chefs offering you their knowledge and guidance in a relaxed environment and with a maximum of 8 participants in any one session. It is designed to encourage you to interact, ask lots of questions and learn, not just about cooking but also life in general as a chalet host.

***There really is no better way to prepare  
for a winter at altitude.***
